RECOMMENDED FOR:

Chief, C-APG  
Management Officer  
Assistant Director, CO  
Assistant Director, CGI

15 SEP 1950

PWPA:

Assistant Director, CGI

25X1A9a:

Organization of CGI for the Production of  
Psychological Warfare Intelligence

1. CGI has recently completed a plan for the production of intelligence for Psychological warfare needed by the Joint Chiefs of Staff and the Department of State (pursuant to directive contained in PW 256 and NSC 59/1). Those agencies hold CIA accountable for the production of intelligence to fulfill this plan.

2. CGI has recommended certain organization requirements in CIA to enable this office to meet these commitments for the production of psychological intelligence. These recommendations have not met with the positive response necessary for CGI to fulfill its production responsibilities. It is therefore necessary to find some means of enabling CGI to meet the commitment for the production of psychological intelligence or of relieving it of this responsibility which it cannot fulfill. CGI can be enabled to meet its responsibilities by implementation of certain organizational proposals, none of which have already been made, or by the creation of a completely new Psychological Intelligence Division with competence and authority to do all the work necessary to see that the production plan is carried out.

3. In view of the situation described above it would be appreciated if you or a representative would attend a meeting in Room 2505, "W" Building at 1000 hours, Wednesday, 20 September 1950 to discuss this matter.
